- PhD topic: Observation & modeling of shallow lakes' physical process
- Fulbright research: Modeling of the (deep) Great Lakes in winter

Lükő Gabriella, Fulbright Visiting Student Researcher, Colorado School of Mines Golden, CO, 2023-2024

- Looked for possible host professors from papers, emailed them and met on Zoom, they suggested possible research ideas based on my work
- I chose the best fitting for my Fulbright, and we worked on my research objectives together with an extra 5 months supported by Mines
- During my Fulbright working with my professor went just as smoothly
- Now I get to collaborate with 9 scientist from the US, Canada, and Hungary and publish a paper together

Papp Soma, Fulbright Scholar, Colorado State University, Fort Collins, CO, 2023- 2024

- BME-VBK, assistant professor
- Research area: nanosensors in medical diagnostics

Rapid test for disease biomarkers in saliva
Publication and patent in progress

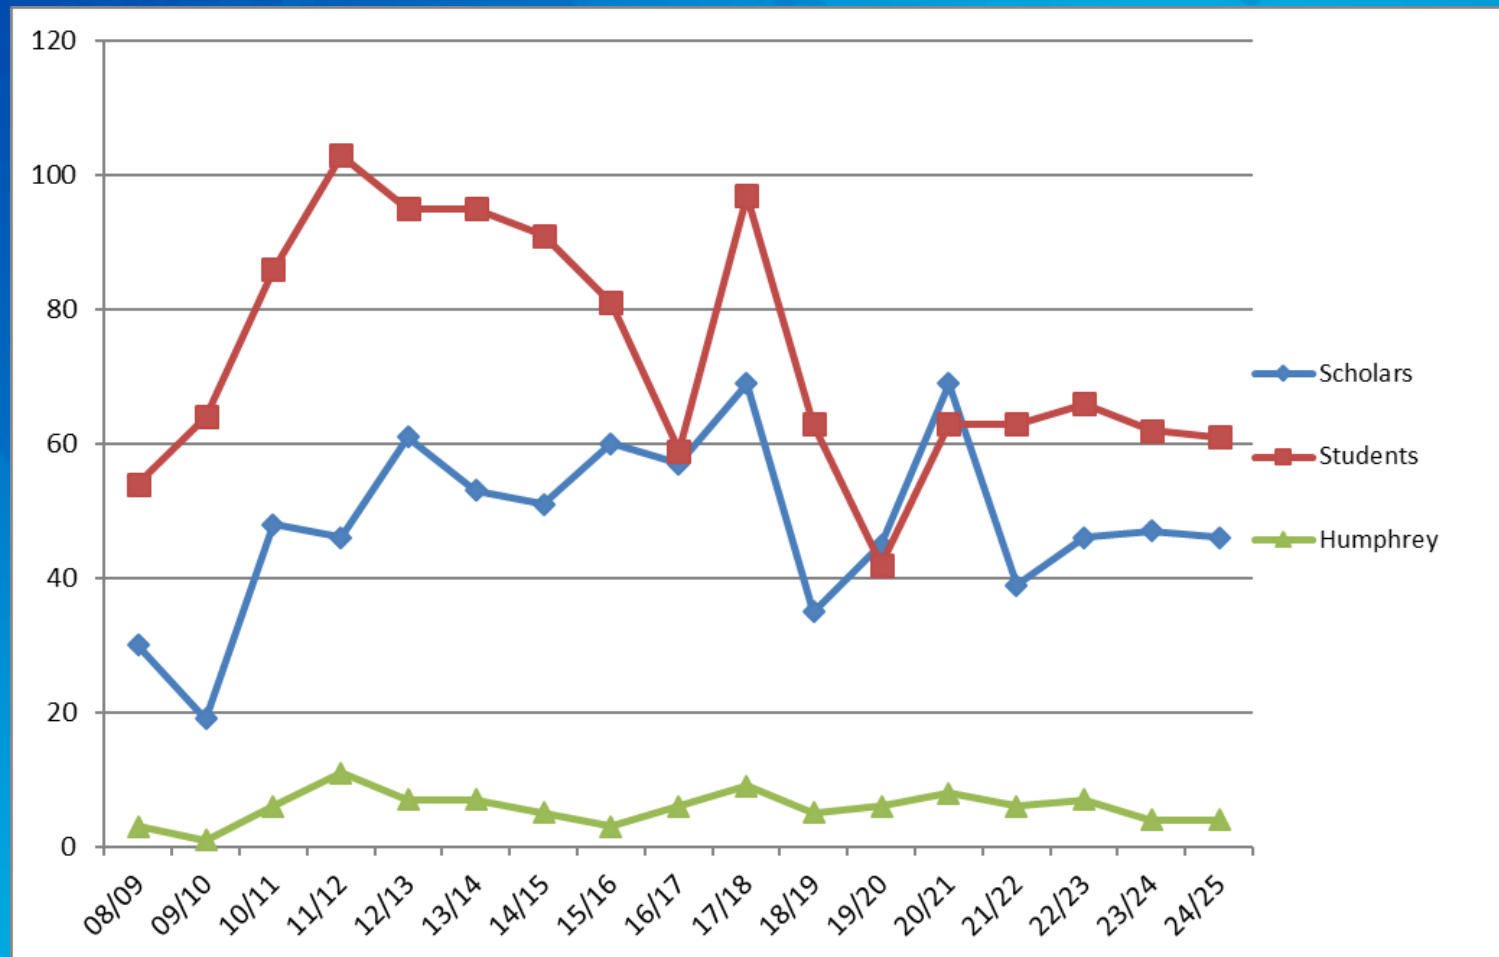

**Papp Soma, Fulbright Scholar, Colorado State University,
Fort Collins, CO, 2023- 2024**

- The host institute or lab should be chosen on a professional basis
- I met my host prof. at a conference, he gave the invitation
- Research plan was ready by mid-September, referees were asked in early October.
- In addition to the research plan sufficient time should be allocated to complete the application form. Gathering all necessary papers and certificates takes time.
- If you are traveling out alone you should look for help from the host group ASAP. They can usually help with accomodation, crucial infos, needs etc.
